

Alibay Arlan Akhanuly

Әлібай Арлан Аханұлы

Target: Frontend Developer Intern / Junior Web Developer

Astana, Kazakhstan · arlanhan1997@gmail.com · +7 707 259 6137

GitHub · LinkedIn · Telegram

Languages: Kazakh - Native; Russian - Fluent; English - B1/B2, technical reading

PROFESSIONAL SUMMARY

Junior Web Developer based in Astana, focused on React, Next.js, TypeScript, and practical full-stack web applications. Built live projects with authentication, database integration, reusable UI components, responsive layouts, and Vercel deployment. Currently expanding backend skills with Go and seeking internship or junior developer opportunities in Astana or remote teams.

TECHNICAL SKILLS

Frontend

React, Next.js, TypeScript, JavaScript, Tailwind CSS, shadcn/ui

Backend & Databases

Supabase, MongoDB, Better Auth, REST API basics, CRUD flows, Database schema

Tools

Git, GitHub, Vercel, Deployment, VS Code

Learning

Go, Backend development, API design, Data analytics

EXPERIENCE

Independent Web Developer / Student Projects

2024 - Present

- Built and deployed full-stack web applications using Next.js, TypeScript, Supabase, MongoDB, and Vercel.
- Owned routing, responsive UI, reusable components, authentication flows, and database-connected CRUD features.
- Maintained source code on GitHub with live demos, project screenshots, and public repositories.

PROJECTS

Qoldanba — Student Adaptation Platform

A centralized platform for first-year students to view schedules, deadlines, and academic resources in one interface.

Tech: Next.js, React, TypeScript, Tailwind CSS, shadcn/ui, Supabase

Live Demo: qoldanba.vercel.app · GitHub: github.com/arlan-6/qoldanba

- Developed a centralized platform for first-year students to access schedules, deadlines, and academic resources in one place.
- Solved the problem of academic information being scattered across different websites and files.
- Designed the platform to help new students adapt faster to university pace, deadlines, and digital tools.
- Implemented authentication and protected routes using Supabase.
- Built responsive UI components with Next.js, TypeScript, Tailwind CSS, and shadcn/ui.

Shaqr — Online Invitation Management Platform

A full-stack web app for creating and sharing digital invitations.

Tech: Next.js, React, TypeScript, Tailwind CSS, shadcn/ui, MongoDB, Better Auth

Live Demo: invitestry2.vercel.app/ · GitHub: github.com/arlan-6/invites

- Built a web platform for creating, managing, and sharing online invitations.
- Developed event detail forms, invitation preview pages, and responsive UI flows.
- Configured account authentication with Better Auth.
- Stored invitation data persistently using MongoDB.
- Designed reusable interface components for form and preview sections.

EDUCATION

Astana IT University, Astana — Bachelor's Degree in Big Data Analytics

09/2025 - Present

- Coursework: programming, databases, data analysis, information processing.
- Continuing frontend practice with React, Next.js, Tailwind CSS.
