PROFILE

I am a junior web developer focused on building practical web applications with React and Next.js. I have built projects with authentication, database integration, reusable UI components, and responsive interfaces. I am currently expanding my backend skills with Go and looking for internship opportunities where I can contribute, learn, and grow in a real development team.

PROJECTS

Qoldanba

qoldanba.vercel.app

Student service platform for viewing schedules and deadlines.

Next.js, React.js, Tailwind CSS, shadcn/ui, Supabase

Built a student-focused dashboard for schedule and deadline access.

Implemented authentication for student accounts.

Connected schedule and deadline records to Supabase-backed storage.

Created reusable responsive UI components with Tailwind CSS and shadcn/ui.

Shaqr

invitetry2.vercel.app/

Web platform for creating and managing online invitations.

Next.js, React.js, Tailwind CSS, shadcn/ui, MongoDB, Better Auth

Built invitation creation flows for saving event details online.

Configured account authentication with Better Auth.

Stored invitation content persistently with MongoDB.

Designed responsive form and preview interfaces for invitation pages.

EDUCATION

Bachelor's Degree in Big Data Analytics

Astana IT University (AITU) · 09/2025 - Present

Bachelor Student

09/2025 - Present

Astana IT University

Studying Big Data Analytics with coursework in data analysis, programming, databases, and information processing methods.

Continuing frontend practice with React, Next.js, Tailwind CSS, and shadcn/ui.

Software Development Student

09/2021 - 06/2025

Innovative Technical College

Completed training in software development, programming, databases, and web technologies.

Built practical projects as part of technical coursework.

SKILLS

Strongest

React, Next.js, TypeScript, Tailwind CSS

Used in projects

Supabase, MongoDB, Better Auth, shadcn/ui

Learning

Go, Backend development, Data analytics

WHAT I CAN DO

Build responsive pages from designs and mockups

Create reusable React components

Work with Next.js routing and layouts

Connect apps to databases using Supabase or MongoDB

Implement basic authentication flows

Use Git and GitHub in project workflows

LANGUAGES

Kazakh, English, Russian
