Open to software engineering, data and AI-oriented internships in Astana or remote

PROFESSIONAL SUMMARY

Big Data Analytics student at Astana IT University with hands-on experience building and deploying software with authentication, protected routes and persistent data. Developing software engineering skills through full-stack projects and Tomorrow School's peer-reviewed curriculum, with foundational Python coursework and an interest in data analysis and AI. Seeking an internship to apply these foundations to practical engineering problems.

EDUCATION

Astana IT University, Astana - Bachelor's degree in Big Data Analytics Relevant coursework: Programming, Databases, Data Analysis, Information Processing.	Sep 2025 - Present Expected graduation: 2028
Tomorrow School, Astana Hub - Core Software Development Program (01 Edu) Peer-to-peer, project-based software development curriculum with collaborative problem-solving and peer review.	2026 - Present

TECHNICAL SKILLS

Programming Python (foundational coursework), TypeScript, JavaScript	Web Development React, Next.js, Tailwind CSS, shadcn/ui
Backend & Databases Supabase, MongoDB, Better Auth, CRUD workflows, Database schemas	Tools Git, GitHub, Vercel, VS Code
Additional Learning Go, Backend API design, Data analytics	

SELECTED TECHNICAL PROJECTS

Qoldanba - Student Adaptation Platform A student adaptation platform for first-year students to view schedules, deadlines, and academic resources in one interface. Tech: Next.js, React, TypeScript, Tailwind CSS, shadcn/ui, Supabase Live Demo: qoldanba.vercel.app · GitHub: github.com/arlan-6/qoldanba - Built and deployed a student information platform using Next.js and Supabase. - Designed authentication and protected-route flows and integrated database-backed academic content. - Connected four application tables for deadlines, schedules, academic activities, and study reminders; deployed on Vercel.
--

Shaqr - Online Invitation Management Platform A full-stack web app for creating and sharing digital invitations. Tech: Next.js, React, TypeScript, Tailwind CSS, shadcn/ui, MongoDB, Better Auth Live Demo: invitetry2.vercel.app/ · GitHub: github.com/arlan-6/invites - Developed a full-stack invitation platform with persistent user and event data. - Integrated Better Auth and MongoDB through an eight-model Prisma schema covering accounts, sessions, templates, and invitations. - Implemented the complete invitation creation workflow from form input to generated public preview.
--

ACHIEVEMENTS & TECHNICAL ACTIVITIES

Hackathons	Certification
Decentrathon 5.0 Participant · AI InDrive track Mar - Apr 2026	Python for Data Science, AI & Development IBM via Coursera · Verify credential · Certificate Jul 2026
HackNU/26 Participant · Nazarbayev University ACM Student Chapter Apr 2026	
HackNU/25 Participant · Nazarbayev University ACM Student Chapter Oct 2025	

LEADERSHIP

Digital Committee Member - Student Association, AITU Contribute to planning and coordination for student-facing digital initiatives within AITU's Student Association.	2026 - Present
