Open to software engineering, data and AI-oriented internships in Astana or remote

PROFESSIONAL SUMMARY

Big Data Analytics student at Astana IT University with hands-on experience building and deploying software with authentication, protected routes and persistent data. Developing software engineering skills through full-stack projects and Tomorrow School's peer-reviewed curriculum, with foundational Python coursework and an interest in data analysis and AI. Seeking an internship to apply these foundations to practical engineering problems.

EDUCATION

Astana IT University, Astana - Bachelor's degree in Big Data Analytics Sep 2025 - Present | Expected graduation: 2028

- Relevant coursework: Programming, Databases, Data Analysis, Information Processing.

Tomorrow School, Astana Hub - Core Software Development Program (01 Edu) 2026 - Present

- Peer-to-peer, project-based software development curriculum with collaborative problem-solving and peer review.

TECHNICAL SKILLS

Programming

Python (foundational coursework), TypeScript, JavaScript

Web Development

React, Next.js, Tailwind CSS, shadcn/ui

Backend & Databases

Supabase, MongoDB, Better Auth, CRUD workflows, Database schemas

Tools

Git, GitHub, Vercel, VS Code

Additional Learning

Go, Backend API design, Data analytics

SELECTED PROJECTS

Qoldanba - Student Adaptation Platform

A student adaptation platform for first-year students to view schedules, deadlines, and academic resources in one interface.

Tech: Next.js, React, TypeScript, Tailwind CSS, shadcn/ui, Supabase

Live Demo: qoldanba.vercel.app · GitHub: github.com/arlan-6/qoldanba

- Built and deployed a student information platform using Next.js and Supabase.
- Designed authentication and protected-route flows and integrated database-backed academic content.
- Structured reusable application components and deployed the production application on Vercel.

Shaqr - Online Invitation Management Platform

A full-stack web app for creating and sharing digital invitations.

Tech: Next.js, React, TypeScript, Tailwind CSS, shadcn/ui, MongoDB, Better Auth

Live Demo: invitetry2.vercel.app/ · GitHub: github.com/arlan-6/invites

- Developed a full-stack invitation platform with persistent user and event data.
- Integrated Better Auth and MongoDB for authentication and storage.
- Implemented the complete invitation creation workflow from form input to generated public preview.

ACHIEVEMENTS & TECHNICAL ACTIVITIES

Hackathons

Decentrathon 5.0 Mar - Apr 2026

Participant · AI InDrive track

HackNU/26 Apr 2026

Participant · Nazarbayev University ACM Student Chapter

HackNU/25 Oct 2025

Participant · Nazarbayev University ACM Student Chapter

Certification

Python for Data Science, AI & Development Jul 2026

IBM via Coursera · Verify credential · Certificate

LEADERSHIP

Digital Committee Member - Student Association, AITU 2026 - Present

- Contribute to planning and coordination for student-facing digital initiatives within AITU's Student Association.

LANGUAGES

Kazakh - Native; Russian - Fluent; English - Intermediate (B1/B2), technical reading
